

## RS Chat

- 🏠 Epics are large overarching initiatives.
- 📅 Sprints are time-bounded pushes to complete a set of tasks.
- 🔧 Tasks are the actions that make up epics.
- 🐛 Bugs are tasks to fix things.

A3 Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Create ER diagram	High	Documentation Initialization 🐛	Complete	Sprint 01	@June 11, 2022 13:15	@June 11, 2022 22:15	3	
Create Relational diagram	High	Documentation Initialization 🐛	Complete	Sprint 01	@June 11, 2022 22:18	@June 12, 2022 2:30	3	
Translate Relational diagram to SQL	High	Initialization 🐛	Complete	Sprint 01	@June 12, 2022 23:40	@June 13, 2022 0:20	0	
Create the model classes with Cayenne Modeler	Medium	Initialization 🐛	Cancelled	Sprint 01	@June 13, 2022 0:20	@June 13, 2022 0:45	0	Migration to JPA
From Cayenne to JPA	High	Configuration ⚙️ Task ↙️	Complete	Sprint 01	@June 13, 2022 13:53	@June 13, 2022 18:00	3	
Backend login with JWT tokens	High	Task ↙️	Complete	Sprint 01	@June 13, 2022 19:00	@June 14, 2022 2:30	2	
Configure Spring security with basic requests	Critical	Configuration ⚙️ Task ↙️	Complete	Sprint 01	@June 13, 2022 23:15	@June 15, 2022 1:55	9	
Backend routes with constants	Medium	Configuration ⚙️ Task ↙️	Complete	Sprint 01	@June 14, 2022 13:16	@June 14, 2022 14:12	0	
Be able to manage request in controller after passing a Filter	Critical	Configuration ⚙️	Complete	Sprint 01	@June 14, 2022 17:30	@June 14, 2022 20:40	1	
Implement SessionService with capability to save, delete	High	Task ↙️	Complete	Sprint 01	@June 14, 2022 21:37	@June 14, 2022 22:00	0	
Update DB to include refreshToken	High	Configuration ⚙️ Task ↙️	Complete	Sprint 01	@June 14, 2022 21:43	@June 14, 2022 21:48	0	
Improve Filters with annotations	Medium	Refactor 🔄	Cancelled	Sprint 01	@June 15, 2022 0:18	@June 15, 2022 0:27	0	
Solve problem with user creation by admins	Critical	Bug 🐛 Task ↙️	Complete	Sprint 01	@June 15, 2022 0:29	@June 15, 2022 1:08	0	I'm a bit idiot
Improve Logout functionality with a Filter and then call the controller	High	Task ↙️	Cancelled	Sprint 01	@June 15, 2022 2:00	@June 15, 2022 18:40	7	
Fix login controller does not work after AuthenticationFilter	Critical	Bug 🐛 Configuration ⚙️	Complete	Sprint 01	@June 15, 2022 13:00	@June 15, 2022 14:10	0	Problem with the LogoutFilter. Removed
Fix CORS security	Critical	Bug 🐛 Task ↙️	Complete	Sprint 01	@June 15, 2022 17:50	@June 15, 2022 18:56	0	Improved using WebMvcConfigurer in main class with a Bean. This configures CORS globally
When receiving a request, check if the token exists in DB	High	Task ↙️	Not Started	Sprint 01	@June 16, 2022 18:00			
Remove Service's interfaces	High	Refactor 🔄	Complete	Sprint 01	@June 17, 2022 14:00	@June 17, 2022 14:17	0	
Migration from Timestamp to LocalDateTime	Medium	Refactor 🔄	Cancelled	Sprint 01	@June 17, 2022 15:45	@June 17, 2022 15:50	0	Made with IntelliJ UI JPA Inspector. Returned to Timestamp because Jackson cannot make correct bindings for that type
Document - Requirements specification	High	Documentation Initialization 🐛	Complete	Sprint 01	@June 20, 2022 14:00	@June 20, 2022 20:23	2	
Register page and switch between Login and Register	High	Task ↙️	Complete	Sprint 01	@June 20, 2022 20:26	@June 20, 2022 20:45	0	
Theme switcher and color palette	Low	Task ↙️	Complete	Sprint 01	@June 20, 2022 20:36	@June 20, 2022 21:03	0	
Store Reducers and Actions for Redux	High	Task ↙️	Complete	Sprint 01	@June 20, 2022 20:41	@June 20, 2022 20:50	0	
Toolbar with theme switcher	Critical	Task ↙️	Complete	Sprint 01	@June 20, 2022 20:55	@June 20, 2022 21:03	0	
Backend register functionality	Critical	Task ↙️	Complete	Sprint 01	@June 20, 2022 21:15	@June 24, 2022 22:05	26	
Configure deploy functionality	Critical	Initialization 🐛 Task ↙️	Complete	Sprint 01	@June 21, 2022 13:00	@June 22, 2022 1:46	3	
Better configuration of deployment CORS config	Critical	Task ↙️	Complete	Sprint 01	@June 22, 2022 20:30	@June 23, 2022 1:35	1.5	
Migration of frontend to other repo	Critical	Bug 🐛 Refactor 🔄 Task ↙️	Complete	Sprint 01	@June 23, 2022 0:37	@June 23, 2022 1:35	0	
Improve custom HttpResponse functionality	High	Task ↙️	Complete	Sprint 01	@June 23, 2022 22:40	@June 24, 2022 3:08	0	
Improve custom HttpRequest functionality	High	Task ↙️	Complete	Sprint 01	@June 24, 2022 0:05	@June 24, 2022 1:04	0	Little modification was done
Refactor Responses with the new class	Medium	Refactor 🔄 Task ↙️	Complete	Sprint 01	@June 24, 2022 22:00	@June 24, 2022 22:33	0	
Solve problem with Instant class of the domain models	High	Bug 🐛 Refactor 🔄	Complete	Sprint 01	@June 24, 2022 22:45	@June 24, 2022 23:15	0.25	ObjectMapper must have JavaTimeModule registered

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
App renaming	High	Refactor	Complete	Sprint 01	@June 24, 2022 23:54	@June 25, 2022 0:15	0	
Frontend API url change when code is in production or in development env	High	Bug Refactor	Complete	Sprint 01	@June 25, 2022 0:30	@June 25, 2022 0:50	0	
Improve request handling in filters. Put data in some attribute in the custom class instead of request.setAttribute()	High	Refactor Task	Complete	Sprint 01	@June 25, 2022 15:00	@June 25, 2022 15:20	0	
Show all opened sessions of user in profile view	Medium	Task	Complete	Sprint 01	@June 26, 2022 0:50	@June 26, 2022 1:15	0	
Profile page with user data (session_name,...)	High	Task	Complete	Sprint 01	@June 26, 2022 23:30	@July 17, 2022 0:04	-1	
Make a Router class to configure HTTP methods and permissions	Low	Task	Cancelled	Sprint 01	@June 27, 2022 11:26	@June 27, 2022 11:29	0	
Add custom Drop Down, password reset and more info in profile	High	Task	Complete	Sprint 02	@July 16, 2022 22:04	@July 17, 2022 0:05	0	
Basic chat page	High	Task	Complete	Sprint 02	@July 19, 2022 17:00	@July 19, 2022 23:50	1.5	
More style to chat and messages	Medium	Task	Complete	Sprint 02	@July 20, 2022 17:55	@July 20, 2022 23:55	2	Messages are broken in several lines if long
Add a new table in DB (Chats)	Critical	Task	Complete	Sprint 02	@July 21, 2022 17:20	@July 21, 2022 19:06	0.5	
Move header of message up one component (to ChatMessage.jsx)	Medium	Task	Complete	Sprint 02	@July 21, 2022 19:27	@July 21, 2022 19:47	0	
Send messages from front to back	High	Task	Complete	Sprint 02	@July 21, 2022 19:55	@July 21, 2022 21:18	1	1 hour interrupted, I was updating the security routes in a separate class.
Update security of the routes. Make a separate class or something	Low	Refactor Task	Complete	Sprint 02	@July 21, 2022 20:00	@July 21, 2022 20:57	0	
Read messages in backend	High	Task	Complete	Sprint 02	@July 21, 2022 21:20	@July 21, 2022 21:30	0	
Store messages in a file with history	High	Task	Complete	Sprint 02	@July 21, 2022 22:00	@July 21, 2022 23:30	0.4	
When sending an empty message, write nothing in the response	Critical	Refactor Task	Complete	Sprint 02	@July 23, 2022 17:40	@July 23, 2022 17:47	0	
Create WebSocket server	High	Task	Complete	Sprint 02	@July 23, 2022 20:15	@July 24, 2022 1:12	1.5	
Send messages to other members of the chat	Critical	Task	Complete	Sprint 02	@July 24, 2022 14:48	@July 26, 2022 1:28	14	
Configure frontend to send messages. Create class and Hook	High	Task	Complete	Sprint 02	@July 25, 2022 19:34	@July 26, 2022 0:34	1.7	
Receive messages in frontend from other clients and log to console	High	Task	Complete	Sprint 02	@July 26, 2022 0:30	@July 26, 2022 1:28	0	Received and printed in class, not component
Add the sessionId when sending the response to the client	High	Refactor Task	Complete	Sprint 02	@July 26, 2022 16:37	@July 26, 2022 17:30	0.25	Previously it was sent the date of sign in
Improve message handling between front and back	High	Refactor Task	Complete	Sprint 02	@July 26, 2022 18:20	@July 26, 2022 21:28	0.6	
Clear the sensitive headers to send the received message to other clients in backend	Critical	Refactor Task	Complete	Sprint 02	@July 26, 2022 18:22	@July 26, 2022 18:38	0	
Improve storage of clients in backend	High	Task	Complete	Sprint 02	@July 26, 2022 22:52	@July 27, 2022 0:32	0.6	WSClientID record was created
Check the date in which the message was sent, to write correctly to the file	Critical	Bug Task	Complete	Sprint 02	@July 27, 2022 0:26	@July 27, 2022 0:29	0	
Receive message in component	High	Refactor Task	Complete	Sprint 02	@July 27, 2022 0:48	@July 27, 2022 2:07	0	
Make a record class to identify the WS user in backend	High	Refactor Task	Complete	Sprint 02	@July 27, 2022 17:57	@July 27, 2022 18:42	0	
Show incoming messages in ChatBox	High	Task	Complete	Sprint 02	@July 27, 2022 20:30	@July 28, 2022 16:55	14	1 - Only shows the last message received 2 - I lasted 6 minutes the following day after watching how to use prevState in setter
Provide more style to message components	High	Improvement Task	Complete	Sprint 02	@July 28, 2022 17:05	@July 28, 2022 20:33	0.8	Can be updated anytime
Make a deploy test in Heroku, to verify the functionality of the sockets	High	Research	Complete	Sprint 02	@July 28, 2022 17:42	@August 5, 2022 0:45	-1	Working with S3 correctly, remains connecting to available chats, not the one you want
Migrate from Java-WebSocket lib to Jetty websockets in backend	High	Refactor Task	Complete	Sprint 02	@July 29, 2022 21:03	@July 30, 2022 15:59	14	Tested with an auxiliary file in frontend
Migrate from native WebSocket to websocket library in frontend	High	Refactor Task	Cancelled	Sprint 02	@July 30, 2022 16:05	@July 30, 2022 17:31		I can use the native WebSocket. 1.5 hours lost 😞
Migrate backend to spring websocket support with custom Handlers	High	Refactor Task	Complete	Sprint 02	@July 30, 2022 18:42	@July 31, 2022 15:00	10	Client is receiving 403 code from the server
Better handling of chats with a new class	Low	Refactor	Complete	Sprint 02	@July 31, 2022 15:45	@July 31, 2022 17:22	0	

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Add a Writer to support message storage in S3. Upload files	High	Improvement	Complete	Sprint 02	@July 31, 2022 19:55	@July 31, 2022 20:05	0	
When uploading file (finished chat) delete from disk. If chat is reopened, download file and keep writing	Medium	Improvement	Complete	Sprint 02	@July 31, 2022 20:06	@August 1, 2022 23:05	20	Key to check for existence was invalid (txt was not added to the search which returned false)
Add support for all types of files (text, images, videos, audios)	Medium	Task	Complete	Sprint 02	@August 1, 2022 23:18	@August 3, 2022 0:05	18	Added a builder for comfort, generalized filetype query to S3
New messages when user joins and leaves a chat	High	Refactor	Cancelled	Sprint 02	@August 3, 2022 20:15	@August 4, 2022 22:30		Decided to rollback to the working implementation (create a socket per chat connection)
Update docs	Very high	Documentation	Complete	Sprint 02	@August 5, 2022 19:50	@August 7, 2022 17:52		
Check token on connect to websocket	Medium	Security	Revision	Sprint 02	@August 5, 2022 20:30	@August 15, 2022 17:04	-1	
Create updated entities in JPA	High	Task	Complete	Sprint 02	@August 5, 2022 22:15	@August 6, 2022 23:26	12	Check if the entities can contain only the reference object, not the id and the object (see Session last 2 attributes). Update: entities only have the id (if an object of other entity is required)
Make administrator view in frontend	Medium	Improvement	Complete	Sprint 02	@August 6, 2022 12:30	@September 13, 2022 13:42	-1	Implementation of services
Make separate classes for Route constants (GET, POST, ...)	Low	Refactor	Complete	Sprint 02	@August 6, 2022 14:26	@August 6, 2022 16:14	1.5	
Implement Degree controller and associated Service in backend	High	Task	Revision	Sprint 02	@August 6, 2022 16:45	@August 6, 2022 20:48	0.3	
Update old methods that used ResponseEntity<?> to use the new HttpResponseMessage class	Low	Improvement	Complete	Sprint 02	@August 6, 2022 23:29	@August 6, 2022 23:42	0	
Check that all routes have the correct http method and permissions	High	Task	Complete	Sprint 02	@August 7, 2022 16:53	@August 7, 2022 17:32	0	
Document - Design model	High	Documentation	Complete	Sprint 02	@August 9, 2022 19:50	@August 9, 2022 20:15	0	
Domain diagram	High	Documentation	Revision	Sprint 02	@August 9, 2022 22:10	@August 9, 2022 22:30	0	13-08-22 > It has changes (add groups)
Use case diagram	High	Documentation	Revision	Sprint 02	@August 9, 2022 23:15	@August 11, 2022 22:58	18	
Spinner on login or register, to know that the request has been sent	Medium	Improvement	Complete	Sprint 02	@August 11, 2022 23:00	@August 11, 2022 23:40	0	
Check migration guide java-hwt to version 4	Low	Security	Complete	Sprint 03	@August 12, 2022 20:43	@August 12, 2022 23:56	2.5	
Decide chat type names	High	Refactor	Revision	Sprint 03	@August 13, 2022 0:11	@August 13, 2022 0:30	0	
Decide structure of the chat URLs	Very high	Task	May change	Sprint 03	@August 13, 2022 0:30	@August 13, 2022 1:00	0	
Add groups to all diagrams	Critical	Task	Complete	Sprint 03	@August 13, 2022 0:45	@August 13, 2022 14:05	12	
How to escape SQL reserved keywords with Spring boot, JPA and Hibernate - Java JEE tutorials by Tarik Chrouki	High	Bug	Complete	Sprint 03	@August 14, 2022 17:40	@August 14, 2022 17:45	0	
Show available chats to user in home view	High	Task	Complete	Sprint 03	@August 15, 2022 19:33	@August 15, 2022 23:05	1.4	See <a href="#">Home page with chat selection</a>
Make chatReducer to shorten loading of home screen when requesting all available chats for a user	High	Improvement	Complete	Sprint 03	@August 16, 2022 16:55	@August 16, 2022 17:36	0	Added the request of all the chats on login and return to client.
Add a callback to client to execute it when a message is sent correctly	Low	Refactor	Complete	Sprint 03	@August 16, 2022 17:41	@August 16, 2022 17:58	0	
Change type of chat in DB to longer name	High	Refactor	Complete	Sprint 03	@August 16, 2022 20:56	@August 17, 2022 22:30	1	Also changed metadata column to json type
Fix problems adding users to global chat on register	Very high	Bug	Complete	Sprint 03	@August 17, 2022 20:32	@August 17, 2022 23:20	0.75	IMPORTANT: PK classes are now <code>@embeddable</code> and they are used in related entity class as a private field with the annotation <code>@EmbeddedId</code>
Improve chat with name and more information about it	High	Task	May change	Sprint 03	@August 18, 2022 19:15	@August 18, 2022 20:19	0.25	
Divide each DropDown into new component and include them in Administration view	Medium	Refactor	Complete	Sprint 03	@August 18, 2022 20:22	@August 19, 2022 0:15	1.5	Made in 2 phases (Extraction, Refactoring). Also extracted Dialogs to new components
Edit diagrams and refactor entity classes (relation classes) and SQL definition to make columns match the table name	Very high	Bug	Complete	Sprint 03	@August 19, 2022 16:41	@August 19, 2022 17:18	0	
Listen to new messages and check if they are USER_JOINED or USER_LEFT and send a new type of message to get the connected users of the chat in the background	Medium	Improvement	Complete	Sprint 03	@August 19, 2022 22:00	@August 20, 2022 0:17	0	Use ACTIVE_USERS_MESSAGE
Add a list of connected users to the chat view	Very low	Idea	Complete	Sprint 03	@August 19, 2022 22:37	@August 20, 2022 0:13	0	

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Show popup when hovering hour of message to display full date	High	Improvement 🚀	Complete	Sprint 03	@August 21, 2022 19:26	@August 21, 2022 20:00	0	Also added dateformat lib. See <a href="#">Show popup when hovering hour of message to display full date</a>
Use strategy pattern to make MessageHandler more readable	Very high	Refactor 🔧	Complete	Sprint 03	@August 22, 2022 0:16	@August 22, 2022 20:47	15	
Upon connection of the user, receive all the messages of the chat up to a limit of 3 days before	High	Improvement 🚀	Complete	Sprint 03	@August 22, 2022 20:49	@August 22, 2022 23:48	0.75	New message type. Messages are sent after the listeners are set
Read history from file stored in disk if it is downloaded. To have updated history to new users	Critical 🔥	Bug 🐛 Refactor 🔧	Complete	Sprint 03	@August 23, 2022 18:00	@August 24, 2022 1:00	2	Since it is always downloaded when the first user is connected, if more users connect to the chat, it is only needed to read from the file
Order active users by name	Low	Improvement 🚀	Complete	Sprint 03	@August 23, 2022 20:25	@August 23, 2022 20:34	0	
Schedule the upload of the history file to S3 after a period of time	High	Improvement 🚀	Reference	Sprint 03	@August 24, 2022 20:30	@August 24, 2022 20:50	0	See <a href="#">Upload the file to S3 every 10 minutes</a>
Upload the file to S3 every 10 minutes	Medium	Improvement 🚀 Task 📌	Revision	Sprint 03	@August 24, 2022 20:30	@August 24, 2022 20:50	0	Do this if a chat has clients for this amount of time
Do the documentation of the Java code	Very high	Documentation 📖	Complete	Sprint 03	@August 24, 2022 22:47	@August 26, 2022 0:40	12	
Add the README.md	Low	Documentation 📖	Complete	Sprint 03	@August 26, 2022 19:05	@August 26, 2022 21:00	0.2	Added file to frontend and backend
Add drag 'n' drop to select files to send to the chat	High	Task 📌	Complete	Sprint 03	@August 26, 2022 20:50	@August 27, 2022 15:00	12	
Add support to encode (in base64) files to be able to send to the server as normal WebSocket messages	High	Task 📌	Complete	Sprint 03	@August 26, 2022 22:50	@August 26, 2022 23:20	0	They are sent as HTTP requests, not through WebSocket, since there is a data size limit. See <a href="#">Upload images from frontend with drag 'n' drop and encode into base64</a>
Send the media files with http requests to the server instead of encoding and sending through the WebSocket	Very high	Improvement 🚀 Refactor 🔧	Complete	Sprint 03	@August 27, 2022 14:30	@August 27, 2022 23:45	1.5	Improvement for this task, since through WebSockets the data transmission is limited to few kB.
Migrate max width determination to backend	Low	Refactor 🔧	Complete	Sprint 03	@August 28, 2022 20:43	@August 28, 2022 20:55	0	
Add functionality for adding more media files	Very high	Task 📌	Complete	Sprint 03	@August 28, 2022 23:15	@September 2, 2022 17:34	-1	Another Strategy pattern in FileController
Fix url when receiving response from server	Critical 🔥	Bug 🐛	Complete	Sprint 03	@August 28, 2022 23:19	@August 29, 2022 0:40	0	
Add support for having database in localhost	High	Task 📌	Complete	Sprint 03	@September 2, 2022 18:45	@September 2, 2022 18:56	0	
Send a ping message from frontend to keep the connection alive	Critical 🔥	Task 📌	Complete	Sprint 03	@September 4, 2022 23:00	@September 4, 2022 23:27	0	
Migrate applications from Heroku to Vercel	High	Task 📌	Complete	Sprint 03	@September 5, 2022 23:00	@September 5, 2022 23:15	0	Only frontend was moved. Heroku will not have free plans after 28th November 2022. Contact Vercel if they have student plans
Disable send button if no text or image is going to be sent	Low	Improvement 🚀 Task 📌	Complete	Sprint 03	@September 6, 2022 1:00	@September 6, 2022 1:50	0	
Show how many images are attached to the message	Low	Improvement 🚀 Task 📌	Complete	Sprint 03	@September 6, 2022 1:20	@September 6, 2022 1:40	0	They must be confirmed in the dialog. If the dialog is closed without clicking on the "Attach" button, the files will remain selected but the user cannot send the message. After sending a message, if images were selected but not attached, they are removed from the selection.
Be able to handle several files at once, to keep the order in which they were sent	Medium	Improvement 🚀	Complete	Sprint 03	@September 6, 2022 1:45	@September 6, 2022 3:00	0	
Make a Feature readme file	Very high	Documentation 📖	Complete	Sprint 03	@September 6, 2022 20:00	@September 7, 2022 0:13	2	
Idle connection of WebSockets	Critical 🔥	Bug 🐛	Complete	Sprint 03	@September 7, 2022 14:22	@September 7, 2022 17:00	1	Needs to be tested. Solved by adding an interval
Create invitation links to put in profile and join a chat	Very high	Improvement 🚀 Task 📌	Complete	Sprint 03	@September 7, 2022 17:31	@September 7, 2022 20:56	1.5	Add new column in chat table. They are codes, not links (for the moment)
Add style to have chats structured in a grid in Home view	High	Improvement 🚀 Task 📌	Complete	Sprint 03	@September 7, 2022 21:12	@September 8, 2022 2:10	1.5	
Extract to a JSON the router structure in App component	High	Refactor 🔧	Complete	Sprint 03	@September 8, 2022 16:11	@September 8, 2022 16:54	0	Make an array of objects that have: path, type (public, private or admin), component. If public, add restricted or not
Remove express and file to serve frontend (since Vercel does not need it)	Very high	Refactor 🔧	Complete	Sprint 03	@September 8, 2022 17:06	@September 8, 2022 17:10	0	Vercel uses package.json file
When entering a chat, send a http request to check if the user has access to that chat	Very high	Task 📌	Complete	Sprint 03	@September 8, 2022 17:23	@September 8, 2022 19:59	0.5	This is done to prevent users to join a chat that is not available to them (modify the URL by hand). See also <a href="#">Restrict the connection to chats. Users can only connect to available ones</a>
Restrict the connection to chats. Users can only connect to available ones	Critical 🔥	Refactor 🔧 Task 📌	Complete	Sprint 03	@September 8, 2022 17:23	@September 8, 2022 19:59	0.5	See also <a href="#">When entering a chat, send a http request to check if the user has access to that chat</a>
Configure email sender to be able to send emails when users are registered or password are reset	Very high	Improvement 🚀 Task 📌	Complete	Sprint 03	@September 9, 2022 0:05	@September 9, 2022 1:11	0.5	
Add email templates for register and password change	High	Improvement 🚀	Complete	Sprint 03	@September 9, 2022 1:20	@September 11, 2022 17:25	32	
Fix 404 error when accessing app in Vercel from external page	High	Bug 🐛 Documentation 📖	Complete	Sprint 03	@September 9, 2022 14:00	@September 9, 2022 14:30	0	<a href="https://t3.09/blog/post/vite-vercel">https://t3.09/blog/post/vite-vercel</a>

If user checks the "Remember me" checkbox, extend the expiration time of the access token to 2 weeks or more	High	Improvement 🚀	Complete	Sprint 03	@September 9, 2022 20:05	@September 9, 2022 20:27	0	
Implement Forgot password functionality and improve reset password. When the user wants to change the password in the profile, send a forgotPassword request with the email, then redirect to create password, since it will be correct	High	Improvement 🚀 Task 🛠️	Complete	Sprint 03	@September 9, 2022 20:35	@September 10, 2022 3:06	2.2	Create a new column in users' table (Or a composite value (so a new table is created) with password, reset password and a code to generate when it resets or forgets). The last option implies heavier refactoring (finally first option is implemented). See <a href="#">Forgot password functionality</a> .
Change all TextField components to be size="small"	Low	Refactor 🔄	Complete	Sprint 03	@September 10, 2022 20:49	@September 11, 2022 20:55	0	
Fix exception when a user exits a chat. User is not created and added to chat	Critical 🔥	Bug 🐛	Complete	Sprint 04	@September 12, 2022 8:35	@September 12, 2022 8:54	0	The connection with the method does not work as expected. The connection is made in the onopen of the WebSocket
Solve problem of not sending USER_LEFT (and USER_JOINED) messages to the server	Critical 🔥	Bug 🐛	Complete	Sprint 04	@September 12, 2022 17:15	@September 12, 2022 20:00	0.1	The client was disabled before sending the USER_LEFT message. USER_JOINED are sent after checking that the user can connect to the chat, in the chat page
Administrators and teachers must have access to invitation code of a chat	High	Improvement 🚀	Complete	Sprint 04	@September 12, 2022 23:00	@September 13, 2022 1:00	0	When clicking the chat name or show next to it
Improve administration view to have several big buttons to select the next window to visualize (not having all data in the same page).	High	Improvement 🚀 Refactor 🔄	Complete	Sprint 04	@September 13, 2022 12:15	@September 13, 2022 13:42	0	Also added Statistics page
Save the files uploaded to the database	High	Task 🛠️	Complete	Sprint 04	@September 14, 2022 13:50	@September 14, 2022 14:52	0	
Limit the size of the files uploaded	High	Improvement 🚀	Complete	Sprint 04	@September 14, 2022 14:52	@September 14, 2022 14:57	0	
Fix problems with audio files that move one message down	Critical 🔥	Bug 🐛	Complete	Sprint 04	@September 14, 2022 16:47	@September 14, 2022 17:24	0	Only fails when the app is executed locally
Remove null clients from list in backend when a message is going to be sent	Medium	Bug 🐛	Complete	Sprint 04	@September 14, 2022 20:04	@September 14, 2022 20:16	0	Made to prevent errors. Every 3 minutes, check if there are null clients in the list.
Refactor the messages sent over WS to remove encoding field (we only use UTF-8) and simplify to UTF-8	High	Refactor 🔄	Complete	Sprint 04	@September 15, 2022 12:21	@September 15, 2022 12:33	0	
Reduce emojis file to only needed fields (name, emoji, unicode, category, sub-category).	Medium	Improvement 🚀	Complete	Sprint 04	@September 15, 2022 12:36	@September 15, 2022 13:46	0	Make a table for emojis
Add the clock (bean) to Instant.now() calls	Medium	Task 🛠️	Complete	Sprint 04	@September 16, 2022 13:26	@September 16, 2022 13:36	0	
Add support for adding emojis without passing them (some keyword like 🌈)	Low	Improvement 🚀	Complete	Sprint 04	@September 16, 2022 14:03	@September 19, 2022 21:04	-1	Api: <a href="https://github.com/aboutnik/emojis-world">https://github.com/aboutnik/emojis-world</a> Or have the list in memory or read from the file or have a table in db. Decision: DB. When the users enters character 🌈 some emojis are suggested. The emoji is between 🌈 characters
Instead of 🌈 for showing emojis, add a button at the beginning of the TextBox	High	Refactor 🔄	Complete	Sprint 04	@September 22, 2022 15:00	@October 6, 2022 20:17	-1	Paused the implementation due to creation of the document for the final delivery
Fix problems with tests	Very high	Bug 🐛 Test 🧪	Complete	Sprint 04	@September 26, 2022 21:45	@September 26, 2022 22:36	0.2	<a href="#">This</a> solves problems. <a href="#">This</a> solves problems running tests with Maven
Add some unit and integration tests	High	Task 🛠️ Test 🧪	In Progress	Sprint 04	@September 27, 2022 11:30			
Improve services to throw exceptions if the entity is not found or an error occurs (and not make it in the controller) and other functionality that could be moved from controllers	Medium	Refactor 🔄 Test 🧪	May change	Sprint 04	@September 28, 2022 16:20	@October 7, 2022 0:19	-1	Needed refactor of Service and Controller classes
Refactor message strategy to have only one implementation of handle method (Audio/Image/Text/Video classes)	Medium	Refactor 🔄	Complete	Sprint 04	@September 30, 2022 19:48	@September 30, 2022 20:00	0	
Document the pattern used by the ChatMap class	High	Documentation 📖	Complete	Sprint 04	@October 1, 2022 13:45	@October 4, 2022 12:16	-1	
Meeting with David Nkoto from Platform.sh	Critical 🔥	Task 🛠️	Complete	Sprint 04	@October 4, 2022 11:00	@October 4, 2022 11:20	0	No contract agreed
Notification when a message is received	Low	Improvement 🚀	Complete	Sprint 04	@October 8, 2022 1:36	@October 8, 2022 2:00	0	Source of the notification sound: <a href="https://mobcup.net/ringtone/mobile-ah-song-jcrtody9">https://mobcup.net/ringtone/mobile-ah-song-jcrtody9</a>
Fit content to all devices (Phone, tablet, pc)	Critical 🔥	Improvement 🚀 Task 🛠️	Complete	Sprint 05	@October 11, 2022 23:07	@October 12, 2022 0:29	0	
Published Instagram story to get feedback	Medium	Research 🔍	Complete	Sprint 05	@October 12, 2022 0:36	@October 13, 2022 0:36	0	
Register email address in Sendgrid to prevent automatic emails to be received in spam folder	Very high	Bug 🐛	TempCancel	Sprint 05	@October 12, 2022 2:35			Emails are received in spam folder 🗑️. Moved to Gmail (using tricks 🧙) by creating account from mobile without adding it) and new implementation. The links are modified and email is sent to spam.

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Infinite requests when going to add new group	High	Bug 🐛	Complete	Sprint 05	@October 12, 2022 23:24	@October 12, 2022 23:26	0	A dependency list in useEffect was not present
Improve chat grid at home page	Very high	Bug 🐛	Complete	Sprint 05	@October 13, 2022 0:02	@October 13, 2022 0:22	0	Removed margin from DropDown and must be set whenever it is used to the inner components
Improve Active users tab with list switching (active / all)	Medium	Improvement 🚀	Complete	Sprint 05	@October 13, 2022 15:50	@October 13, 2022 17:34	0.5	
Configure home server	Critical	Configuration ⚙️ Improvement 🚀	Complete	Sprint 05	@October 14, 2022 16:00	@October 16, 2022 22:00	16	
Backend works correctly in home server	Critical	Configuration ⚙️	Complete	Sprint 05	@October 15, 2022 20:00	@October 15, 2022 23:15	0.7	
Make WebSockets work in the home server	Critical	Configuration ⚙️	Complete	Sprint 05	@October 15, 2022 23:28	@October 15, 2022 23:32	0	Only needed to change WebSocket connection URL
Create self-signed SSL cert to enable access from Vercel	Very high	Bug 🐛 Configuration ⚙️	Complete	Sprint 05	@October 16, 2022 18:32	@October 17, 2022 21:12	8	No self-signed SSL used. We use <code>certbot</code> to get the certificates automatically with reliable CA.
Improve log configuration file to make files with RollingFilePolicy	Medium	Improvement 🚀	Complete	Sprint 05	@October 19, 2022 17:20	@October 20, 2022 18:10	0	
Improve Administration pages with edit and list views (with edit and remove button on every item of the list)	Medium	Improvement 🚀	Complete	Sprint 05	@October 21, 2022 19:30	@October 22, 2022 17:23	10	Deleting chats, remove history
Fix removal of chats with incorrect id. Modify tables to have one column with the id of the table the entries come from.	High	Bug 🐛	Complete	Sprint 05	@October 22, 2022 12:15	@October 22, 2022 23:45	3	
Check why the sessions are removed every time the scheduled task is executed	Medium	Bug 🐛	Complete	Sprint 05	@October 25, 2022 20:25	@October 25, 2022 20:32	0	Token did not have the prefix when verifying it. Changed implementation of the method to support having or not the "Bearer " prefix
Add support for text and pdf files messages	High	Improvement 🚀	Complete	Sprint 05	@October 26, 2022 0:38	@October 26, 2022 1:30	0	Remains giving style to the message boxes
PDF visualizer	Medium	Improvement 🚀	Complete	Sprint 05	@October 26, 2022 15:30	@October 26, 2022 17:38	0.3	
Leave chat (user action)	Medium	Improvement 🚀	Complete	Sprint 05	@October 26, 2022 18:53	@October 26, 2022 19:10	0	
Improve performance when showing the emails	Very high	Improvement 🚀	In Progress	Sprint 05	@October 26, 2022 19:38			
When clicking a username in a chat, display a small popup with a button to start a user-user chat or other actions	High	Improvement 🚀 Task 🛠️	Complete	Sprint 05	@October 26, 2022 23:10	@October 26, 2022 23:48	0	Causes errors and the page turns completely white because the following exception occurs <code>Rendered fewer hooks than expected. This may be caused by an accidental early return statement.</code> . Update: Initial date: 20 August 0:20 -- 21 August 23:23 Now no errors
Add end date to sessions, to not verify on each token every 15 minutes to check if it has expired.	Medium	Improvement 🚀 Refactor 🔧	Complete	Sprint 05	@October 28, 2022 1:35	@October 28, 2022 1:56	0	
Remove refresh token from sessions, because it is not used	High	Refactor 🔧	Complete	Sprint 05	@October 28, 2022 1:57	@October 28, 2022 2:40	0	Also from frontend in Redux
Administration button to schedule the restart of the server	Very high	Improvement 🚀	Complete	Sprint 05	@October 29, 2022 0:40	@October 29, 2022 16:06	8	
Refactor connection to web socket server by adding one previous step to joining the chat	High	Improvement 🚀 Refactor 🔧 Task 🛠️	Complete	Sprint 05	@October 30, 2022 0:39	@October 30, 2022 1:18	0	Now messages can be sent without being in a chat
Add a new page to send information message to all users	High	Improvement 🚀	Complete	Sprint 05	@October 30, 2022 22:30	@October 31, 2022 2:34	0	In frontend we make a new page with a chat (only for administrators) and every message that is sent, is globally notified (new type and task). Also, I can define buttons to have predefined messages to send.
Global variable to store the WebSocket client when the user is logged in	High	Improvement 🚀	Complete	Sprint 05	@November 2, 2022 16:41	@November 2, 2022 17:00	0	Kept global state with a React context: <a href="https://stackoverflow.com/questions/69675357/react-what-is-the-proper-way-to-do-global-state">https://stackoverflow.com/questions/69675357/react-what-is-the-proper-way-to-do-global-state</a>
State information about the connection of the socket to the server (Connected or disconnected) in Toolbar	Medium	Improvement 🚀	Complete	Sprint 05	@November 2, 2022 17:03	@November 2, 2022 17:11	0	
Extract connection display to new component	Medium	Refactor 🔧	Complete	Sprint 05	@November 4, 2022 13:39	@November 4, 2022 14:00	0	
New component colors for the information messages	High	Improvement 🚀	Complete	Sprint 05	@November 4, 2022 14:21	@November 4, 2022 14:23	0	
Revise all todo tasks	Very high	Research 🔍 Task 🛠️	Complete	Sprint 05	@November 4, 2022 20:27	@November 5, 2022 0:58	1.5	First frontend, then backend
Add support for commands with '/' character	Low	Improvement 🚀	Complete	Sprint 05	@November 5, 2022 2:01	@November 5, 2022 15:33	9	Use a Tokenizer (idea)
Support mentions with '@' character	Medium	Improvement 🚀	Complete	Sprint 05	@November 5, 2022 3:36	@November 5, 2022 15:33	9	Use the same tokenizer for commands but for @ symbol
Implement commands and mentions	High	Improvement 🚀	In Progress	Sprint 05	@November 6, 2022 2:34			
Web Socket does not connect to backend in production	Critical	Bug 🐛 Task 🛠️	Complete	Sprint 06	@November 11, 2022 18:30	@November 16, 2022 1:28	-1	Brave Browser was blocking the connection 🤔
Refactor all the controllers. When an exception is thrown in other method, catch it to send a response message to show to the user	Very high	Refactor 🔧 Task 🛠️	Complete	Sprint 06	@November 15, 2022 23:28	@November 16, 2022 19:24	14	Change the error message retrieval in frontend. Can be rolled back to not using this, since the exceptions are sent if thrown in other method, but the message retrieval changes a bit.

Migrate nswjs service to Python	Critical 	Bug  Refactor 	Complete	Sprint 10	@March 12, 2023 13:57	@March 14, 2023 2:49	24	
Set to users the block date when several NSFW content is uploaded to chats	High	Improvement 	Complete	Sprint 10	@March 21, 2023 23:00	@March 21, 2023 23:56	0	
Prepare environment to perform frontend tests	High	Configuration  Test 	Complete	Sprint 10	@March 30, 2023 1:00	@March 30, 2023 1:10	0	Simple jest execution

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Add more CI steps for testing	Medium	CI/CD  Improvement  Test 	Complete	Sprint 10	@March 30, 2023 13:56	@March 30, 2023 15:15	0.5	
Kick the users out of the session when they upload the last NSFW content	High	Improvement 	Complete	Sprint 10	@April 5, 2023 2:03	@April 5, 2023 3:29	0	
Check run conditions when uploading several images at once when performing the request to the Python API	Very high	Bug 	Complete	Sprint 10	@April 5, 2023 3:43	@April 5, 2023 4:06	0	When uploading 5 nsfw images, in the DB is stored only 4 (in the user nsfw_count column). <a href="https://stackoverflow.com/questions/30346882/do-synchronized-java-methods-queue-calls">https://stackoverflow.com/questions/30346882/do-synchronized-java-methods-queue-calls</a>
If user is blocked, do not allow to enter the app	High	Improvement 	Complete	Sprint 10	@April 5, 2023 4:10	@April 5, 2023 4:20	0	Very easy. Added a single check in the <code>login</code> endpoint and a pretty format
When sending a server message, the type must be a generic one.	High	Refactor 	Complete	Sprint 10	@April 5, 2023 13:00	@April 5, 2023 13:12		Create a constant and update all usages of the <code>createMessage</code> function
Fix not showing the images when uploading	Very high	Bug 	Complete	Sprint 10	@April 6, 2023 15:57	@April 6, 2023 16:20	0	Resources are uploaded to the wrong folder in S3 (uppercase) and should be stored inside the lowercase ones
Make a form to get feedback from users	Very high	Research 	Complete	Sprint 10	@April 6, 2023 16:00	@April 8, 2023 16:00	18	
Fix pdf not showing	Very high	Bug 	Complete	Sprint 10	@April 7, 2023 15:25	@April 7, 2023 16:42	0	CORS policy has incorrect <code>AllowedOrigins</code> prop
Configure the CORS policy when checking connectivity to the bucket	High	Improvement 	Complete	Sprint 10	@April 7, 2023 16:42	@April 7, 2023 22:03	1.5	
Fix app crash when sending a command that is unavailable	Critical 	Bug 	Complete	Sprint 10	@April 10, 2023 3:08	@April 10, 2023 4:34	0	Added NoOp command
When showing command stats in profile, the app crashes (see image)	Critical 	Bug 	Complete	Sprint 10	@April 10, 2023 12:35	@April 10, 2023 14:52	0.7	An object (command stats) is stored inside, and the app does not support that.
Improve session display in frontend (show dates, and the index is the id of the session)	Medium	Improvement 	Complete	Sprint 10	@April 10, 2023 14:52	@April 10, 2023 17:03	0	
When users upload several NSFW images, block them for a period of time	Medium	Improvement  Task 	Reference	Sprint 10			0	<u>Set to users the block date when several NSFW content is uploaded to chats</u>
When inviting someone to a chat, send an email to the user to notify the invitation. The user is added to the chat immediately.	Medium	Improvement 	Complete	Sprint 11	@April 11, 2023 2:05	@April 12, 2023 3:30	12	Instead of a command, do a button near chat name and send a <code>POST</code> request. This allows to ease the process of DI and send the email to the user.
Refactor Utils class to not be named like that	Low	Documentation  Refactor 	Complete	Sprint 11	@April 30, 2023 3:25	@April 30, 2023 3:58	0	
Fix bug not sending email on invitation	High	Bug 	Complete	Sprint 11	@May 1, 2023 1:40	@May 1, 2023 1:57	0	Instead of using the email, it was used the username of the invetee. Used Tuple to return the chat and the user from the lambda.
Remove the /invite command	Medium	Refactor 	Complete	Sprint 11	@May 1, 2023 13:20	@May 2, 2023 13:40	0	Added the invite button in chat view
Use Optional<T> in all return types from the repository	High	Refactor 	Complete	Sprint 11	@May 3, 2023 12:39	@May 3, 2023 12:44	0	
Refactor exception handling in controllers with @ControllerAdvice	Medium	Refactor 	In Progress	Sprint 11	@May 7, 2023 2:31			<a href="https://reflectoring.io/spring-boot-exception-handling/">https://reflectoring.io/spring-boot-exception-handling/</a>
Fix error in profile view	Medium	Bug 	Revision	Sprint 11				
Add Report page for admins and display all the report notifications	Low	Improvement 	Not Started					
Video handling with lib	UNSET	Idea 	Not Started					<a href="https://github.com/kokorin/jaffree">https://github.com/kokorin/jaffree</a> <a href="https://github.com/Manevolent/ffmpeg4j">https://github.com/Manevolent/ffmpeg4j</a>
Fix Redux localStorage modification by checking the username of the token in the backend.	Very high	Bug 	Not Started					Also the storage should be changed to other with more security
New design when sending nsfw media	Medium	Improvement 	Not Started					The user can see the image, but other users cannot
Send the session id in the login and register response to identify the session in the profile view	Low	Improvement 	Not Started					
Do not store empty commands	Medium	Bug 	Not Started					
Improve command parsing	Medium	Improvement  Refactor 	Not Started					
Improve blocked users and friends functionality and relationships in db	Low	Refactor 	Not Started					
Chats with limited number of members	To define	Idea  Improvement 	Not Started					
Create group by every user (private or public)	Low	Improvement 	Not Started					
Unread messages balloon notification	Medium	Improvement 	Not Started					
Multiple chat tabs	Medium	Improvement 	Not Started					
Webcam integration	To define	Idea  Improvement 	Not Started					<a href="https://primefaces.github.io/primefaces/sdocs/modules/src_PrimeFaces.Webcam.html">https://primefaces.github.io/primefaces/sdocs/modules/src_PrimeFaces.Webcam.html</a>
Age verification	Low	Improvement 	Not Started					

Aa Projects	Priority	Type	Status	Sprint	Started	Finished	# Inactivity (h)	Notes
Improve friends functionality to not add symmetric rows to DB	Medium	Improvement	Not Started					To represent friends, with only one relation suffices (or look for other techniques).
Report user form and send a notification to administrators of a new report.	Medium	Improvement	Not Started					
When the chat passes 1 month, delete the history.	Medium	Idea Improvement	Not Started					
Integrate the Keras NSFW model to Java (new service or integrated in the app)	Low	Idea Improvement	Cancelled			@March 11, 2023 2:30		<a href="https://towardsdatascience.com/deploying-keras-deep-learning-models-with-java-62d80464f34a">https://towardsdatascience.com/deploying-keras-deep-learning-models-with-java-62d80464f34a</a>
Use WebTau for E2E tests (for test the API)	High	Improvement Test	Cancelled			@February 21, 2023 23:30		<a href="https://github.com/testingisdocumenting/webtau">https://github.com/testingisdocumenting/webtau</a>
Make all strategies a @Component, to be able to inject attributes	Low	Improvement Refactor	Cancelled					See <a href="#">Big refactor to inject some objects to message strategies</a> . Strategies do not have the annotation but all the needed arguments are passed to the constructor of the strategy from the Mappings class (this is a @Component class)
Replace single MIME type for files with the full MIME type name	Medium	Refactor	Cancelled			@January 31, 2023 23:30	-1	This change would affect the storage of the files in S3 bucket
